

Outdoor light

L 835 LED iHF Cubo

EAN 4007841055516

Functional description

The CUBO wall lights refine any facade. They are true gems. And a strong piece of technology. The digital outdoor lights do not just satisfy the highest demands on design. Their inner values are also impressive. For example, the concealed 160° iHF sensor which, with a reach of 5 m, is tuned only to human movement patterns. All other movements, such as cats or leaves in the wind, are professionally ignored. Cubo wall lights illuminate with warm-white light (3000 K) and are available in three design options with various light patterns. With convenient night light function (10 to 50%), elegant soft light start and 4-hour manual override.
