OVERVIEW

Each round shade which surrounds the E14 lampholders of the Vivienne collection is formed from high quality clear crystal pieces. With a substantial size, the rectangular shape crystals have a crossed cut that projects a more three dimensional visual. When illuminated by the chosen lamps being used the crystal refracts the light in a dazzling halo of ambience. The sleek upwardly curved arms which support the lampholders are embellished with beautiful crystal sconces. All of the pendants, ceiling lights and complementing wall lamps available within the Vivienne range can be selected with a polished nickel or french gold colour finish.
