OVERVIEW

Siena with Its slim and sinuous rectangular arms give a charm and simplicity that makes this elegant collection. The silk string shades create a screen that produces a diffused light, which work together with its complimenting crystal pendalogues and sphere, creating an intimate atmosphere. The silk string shades have a white inner lining which allows for maximum illumination and creates a contrasting conclusion. With three different frame and crystal finishes and eleven different colour options for the silk string shades, you really can create a tailored solution for your decor. Siena is the most comprehensive range currently on offer.
