OVERVIEW

This diverse universal range of designer fixtures, illuminated furniture and standard shaped oval, cone and round shapes engineered from high grade polyethylene and white epoxy finish metalwork. The substantial flush luminaires take the essence of a cloud and combine it with a modern flare. The strategically positioned organic shaped polished chrome plate creates a multitude of curves and shapes that illuminate in harmony. The more standard shaped luminaires having E27 lamp holders can be illuminated with various lamps to give a tailored effect. With colour changing LED lamps, the possible lighting effects can be creative. This effect can be seen in the portable rechargeable table lamp which allows a fully portable product that can be placed wherever the need arises and create the ambience that is desired. All these results can also be obtained from the illuminated stools that are within the range. Huevo provides a vast array of aesthetic lighting solutions.
