OVERVIEW

Argi is a comprehensive collection dedicated to the traditional brown oxide colour finish and inspired by the infamous work of Spanish sculptor Eduardo Chillida. Our designer, Jose Ignacio Ballester makes a small tribute by the name "Argi" meaning "Light" in Basque, used in the birthplace of the sculptor. Jose has designed incomplete circular shapes of square section, interwoven and harmoniously embedded creating the key element of these lights. The rustic metal framework is seamlessly complimented by the woven fabric sand colour shades. Argi is a complete collection offering a range of pendant, ceiling, wall, floor and table lamps which guarantee a soft classic rustic atmosphere.
