OVERVIEW

Cumbuco is an expertly created range by Mantra Fusion with the intent of providing substantial flush LED fixtures which can be converted to adjustable pendant lights when purchased with the ranges pendant kits. Cumbuco boasts an impressive range of lumen outputs the maximum being an immense 5400lm. Each of the three shapes circular, square and rectangular are available in two different sizes. The 4000K integral LED's are concealed by an acrylic diffuser and the neutral white colour finish enables the fittings to be used in conjunction with any colour scheme.
