OVERVIEW

Simple but emphatic in design, Papua is yet another successfully innovative LED collection by Mantra. Each fitting is comprised of curved Aluminium bars with 3000K integral LED's encased in an acrylic diffuser. The pendant ceiling lights suspend these bars at each end allowing you to create a puppet like effect with the ability to adjust the height of each suspension cable. The alternating down and uplighter direction of the LEDs illuminates an extended area whilst emphasising the fixture itself. The range is completed with a rectangular plate with fixed LED curved bars for the flush ceiling light and a table lamp which is also available with a chrome spiral base.
