## OVERVIEW

Orbital's structural concept is derived from the desire to produce a spherical framework with a more intricate design feature. Each item is comprised of white aluminium rings fixed at different angles, decreasing in size as they move into the centre of the sphere, giving the targeted dimension and character intended with the creation of this range. The integral LED's are housed within an acrylic diffuser inside each ring generating a stunning ambience. The adjustable pendants are available in three sizes and the collection also offers a fixed ceiling light and table lamp.
