OVERVIEW

This stunning ultra-modern LED collection creates patterns and obscure shapes using individual circles in a variation of sizes. Each of the smaller circles are composed of a band of white metal in which the 3000K integral LED's sit and are concealed by a striking crystalized diffuser which creates a distinctive feature. With each ceiling light comes the ability to control and dim the colour temperature using the remote control included with the light. Offering a variety of adjustable pendants, flush ceiling lights and wall lamps Lunas is a truly comprehensive range with a fixture to suit any requirement. This range has a 3 year warranty.
