OVERVIEW

Nido consists of intricately formed substantial sculptural shapes, coated in a metallic polished chrome finish. Each piece holds a set of integral LED's diffused at the top of the shape, enabling the light to be emitted in an upwards direction. To provide even more illumination the satin nickel ceiling plates of the pendant lights, host LED disks concealed within an acrylic diffusers, further increasing the lumen output and directionality of light. With warm white (3000K) LED's and a 3 year warranty, this ultra-modern range will create character in its chosen room setting.
