OVERVIEW

Corinto is a Spanish design by Jose Ignacio Ballester. It's elemental structure is presented in the form of smooth and harmonious strokes producing silhouettes based on primary architectural shapes. The sleek curvature of the LED arms creates an exquisite statement feature which offers a delicate atmosphere in it's chosen room setting. The integral LED's produce a warm 3000K illumination, further amplifying the serene effect of the collections design. The ceiling lights available in two sizes can be accompanied by the corresponding wall, floor and table lamps. Both the large and small table lamps along with the wall light in this range, have an added functionality feature in the form of a touch dimmer, ideal for controlling your additional lighting solutions in a modern age.
