OVERVIEW

The growing trend of using natural raw materials in interior design has been interpreted by Jose Ignacio Ballester with the Sabina collection. Sabina with soft rustic strokes of fibre, emulates the textures and colours of natural wood, coating the metal framework to create a branch like effect. The cables loop and knot around the branches and lead to the beige linen shades imitating burlap, in the form of traditional ropes. From the wide range of different pendant lights to the wall, table and floor lamps, the castaway theme is brilliantly carried throughout the range.
