OVERVIEW

This trio collection of single pendants utilises popular aspects to portray a truly futuristic design concept. The fascinatingly shaped slim disk shade is composed of blown chrome glass giving the Lens range a metallic style. With an open oval base to the glass as well as the translucency of the chrome filter, slightly diffused light is emitted from all angles of the pendant. The black suspension cable and oval polished chrome ceiling plate tie in perfectly with the glass shape and modern character of the fixtures.
