OVERVIEW

This comprehensive range combines sleek modern lines and attractive crystal aspects balanced with white soft textured faux fur shades to provide stylish lights which create a warm homely atmosphere. Andrea is available in polished chrome and antique brass and each finish is decorated with coloured tear drop crystals. The polished chrome fixtures are paired with black crystal while the antique brass hosts opal white crystals, the contrast of the crystals against the colour finish of the frame promotes further distinctiveness and sophistication. The adjustable hanging pendants range from an impressive two tier 12 light with a 1m diameter, producing greater presence in a large room, to a 3 light pendant suitable for a smaller setting without compromising it's presence. Any of these pendants can be partnered with the matching floor, table and wall lamps to maximise your lighting options and optimise the collection to create the ultimate lighting design feature.
